Infant Safe Sleep Policy

Diave' Daye will follow all mandated laws pertaining to Infant Safe Sleep procedures. All infants under the age of 12 months will be laid on their back for naps. No blankets will be in the bed and nothing over or on the sides of the bed with the child during this time. We are actively doing all we can to prevent SIDS in our care. All Staff members will take the mandatory infant safe sleep class Within the first 30 days of hire and every 3 years at a department-approved training regarding the American Academy of Pediatrics (AAP) safe sleep recommendations contained in the American Academy of Pediatrics Task Force on Sudden Infant Death Syndrome. All members of staff will have class attended documentation on file in the centers filing system. Copies of policies and procedures will be handed out to the parents after every class or changes made by the state. A copy of documents will be available upon parent's request.

Sudden infant death syndrome (SIDS) is the sudden death of an infant less than one year of age that cannot be explained after a thorough investigation has been conducted, including a complete autopsy, an examination of the death scene, and a review of the clinical history.

Sudden unexpected infant death (SUIDS) is the sudden and unexpected death of an infant less than one year in age which the manner and cause of death are not immediately obvious prior to investigation. Causes of sudden unexpected infant death include, but are not limited to, metabolic disorders, hypothermia or hyperthermia, neglect or homicide, poisoning and accidental suffocation.

Missouri Law (210.223.1, RSMo,) requires all licensed child care facilities that provides care for children less than one year of age to implement and maintain a written safe sleep policy in accordance with the most recent safe sleep recommendations of the American Academy of Pediatrics (AAP). Missouri child care licensing rules require licensed child care facilities to provide parent(s) and/ or guardian(s) who have infants in care be provided a copy of the facility's safe sleep policy.

Safe Sleep Practices

All infants under the age of one year will be placed on their back for sleep times. Children will have their own bed or cot for sleeping or napping. All cribs have met the Consumer Product Safety Commission standards and guidelines. Firm mattress with tight fitted sheets are to be used at all times and bed or bedding pads are to be tight and fitted to the sides of the crib. If the child wets the bed during sleep. The bedding must be removed and cleaned immediately. The mattress will be cleaned and sanitized immediately. No covers will be in the crib with them during nap or sleep time. The room will be at a comfortable temperature between 68 degrees and 85 degrees. There will be no loose bedding, clothes, pillows, bumpers pads or any other risk causing materials in the crib. Nothing in the crib to block sight of the infant. Securely fitted clothing such as sleepers, and properly fitted clothes. Pacifiers without a string or anything attaching it to the clothes, will be allowed. Bunkbeds, Highchairs, Strollers, Car seats, Swings, Bouncers or any other sitting equipment shall be used for sleeping or napping at any time.

Supervision of infants will include: the staff will be positioned in the middle of the room, within sight and sound of all infants. The lighting will include both natural light and lamp during nap time. The staff will conduct physical checks every 15 to 20 minutes during nap. Physical checks will consist of looking, touching and listening to infants breathing and repositioning if needed to ensure they are not overheated or in distress. Infant's head will remain uncovered during nap/sleep times. Any equipment which interferes with the caregiver's ability to see or hear the child who may be distressed will not be used.

No persons shall smoke or otherwise use tobacco products in any area of the child care facility during the period of time when children cared for under the license are present.

A doctor's notification will be the only legal exception to the back to sleep rule. It must be written by a doctor with alternative sleep positions or special sleeping arrangements noted. The facility must have the doctor's statement on file and it must be signed by the director.

Child and Adult Care Food Program Parent Letter – Non-Pricing Child Care Centers July 1, 2023 through June 30, 2024

Dear Parent or Legal Guardian:

Our center is currently participating in the Child and Adult Care Food Program. This program reimburses the center for the partial cost of meals provided to children and allows the center to provide nutritious meals without increasing the center's fees to you. If your yearly income is equal to or below the amount listed for your family size on the chart below, your child is eligible for free or reduced-price meals. If the income is higher than the amount listed for your family size, you do not need to complete the income application.

Family Size	Yearly Income	Family Size	Yearly Income
1	\$26,973	5	\$65,009
2	\$36,482	6	\$74,518
3	\$45,991	7	\$84.027
4	\$55,500	8	\$93,536

For each additional family member, add \$9,509

To apply for free or reduced-price meal benefits for your children, you must complete the attached Income Eligibility Form (IEF). Your application for free or reduced-price meal benefits cannot be approved unless the attached application is completed according to the directions provided; however, you are not required to complete the IEF. Notify the center should the household income decrease and/or if the household size increases. A participant may be eligible for free or reduced-price meals. The application is valid until the last day of the month in which the form was approved/dated/signed one year earlier.

Sincerely,

Center Owner/Director
